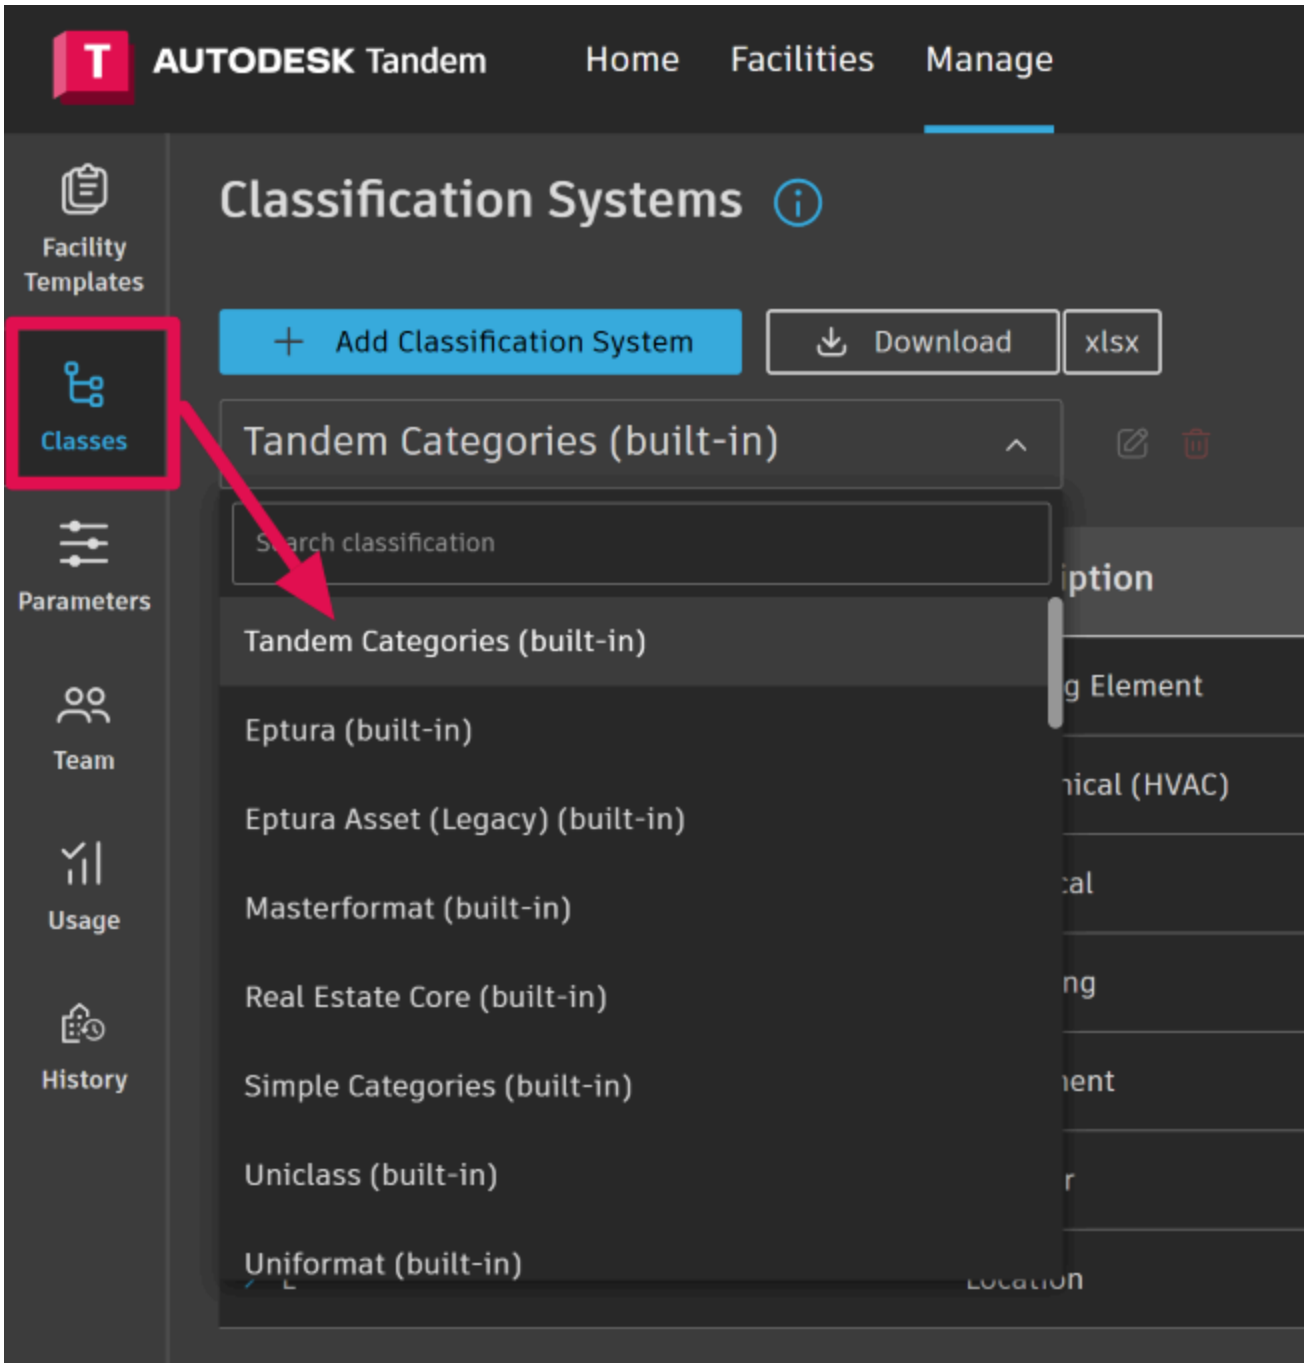
Classifications

Step 1 of the 3-step process to Specify Data Requirements

Classifications is where you will manage all of the classification systems used across your portfolio. The classification system defines the hierarchical structure of asset categories and types. Classification systems are used to define your asset types and grouping (or categorization). You can leverage preloaded industry standards or upload your own system as desired.

To begin, navigate to the **MANAGE** page within Autodesk Tandem.

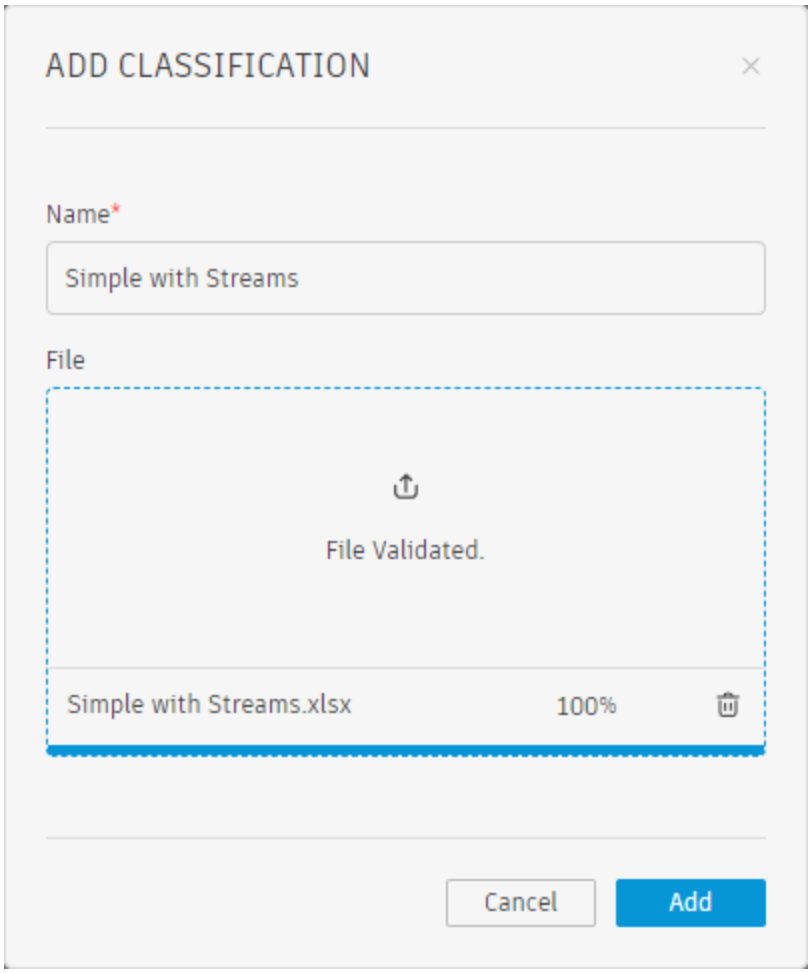


Custom Classifications

To import a custom system, select an existing system and click download to use as a template. This will create an Excel template to work with. In Excel, you can populate the code, description, and tree level (which defines how the line items will be grouped hierarchically).

	A	B	C
1	Code	Description	Level
2	A	Substructure	1
3	A10	Foundations	2
4	A1010	Standard Foundations	3
5	A1010.10	Wall Foundations	4
6	A1010.30	Column Foundations	4
7	A1010.90	Standard Foundation Supplementary Components	4
8	A1020	Special Foundations	3
9	A1020.10	Driven Piles	4
10	A1020.15	Bored Piles	4
11	A1020.20	Caissons	4
12	A1020.30	Special Foundation Walls	4
13	A1020.40	Foundation Anchors	4
14	A1020.50	Underpinning	4
15	A1020.60	Raft Foundations	4
16	A1020.70	Pile Caps	4
17	A1020.80	Grade Beams	4
18	A20	Subgrade Enclosures	2
19	A2010	Walls for Subgrade Enclosures	3
20	A2010.10	Subgrade Enclosure Wall Construction	4
21	A2010.20	Subgrade Enclosure Wall Interior Skin	4
22	A2010.90	Subgrade Enclosure Wall Supplementary Components	4
23	A40	Slabs-on-Grade	2
24	A4010	Standard Slabs-on-Grade	3

Within Excel, once ready, we can click ***Add Classification***, provide a name, and select the appropriate Excel file.



To review, update, or delete a classification system, you can click the dropdown and select the classification system. If you would like to update the classification system, click update and drag-and-drop the updated Excel file.

Visit our **Tandem Categories** (https://help.autodesk.com/view/TANDEM/ENU/?guid=tandem-categories) page to learn about this classification structure
